

>>NEW<<  
**EDUCATION** iPad for every  
 child in your school...

...and for just £9.00 a month!

NOW COMPATIBLE WITH THE APPLE PENCIL

## New to iPads?

The Learning Foundation is delighted to offer a very special iPad opportunity that we have been able to put together with the help of our trusted partners. For several years we have been working with a number of specialist companies, all of whom are committed to helping schools setup fully inclusive and sustainable 1:1 programmes, where every child has a computer to use in class and at home.

We know how tough it is for schools to justify any expenditure, but we are also aware that there are many schools that can see the opportunities that technology could offer them - if only they could afford it! We believe that combining this offer with the expert advice and experience that the Learning Foundation can provide, will make it possible for every school to take a leap in to the future...

## So what's the offer?

This programme is designed to run over 3 years with a package that includes the following:

- A fully expensed iPad WiFi 32GB - Slate Grey (Model: MP2F2B/A)
- An Insurance approved case
- 3 year collect & return warranty plus no excess ADT insurance
- Device enrolment programme

**Special additions to that package can include** (depending on the specific supplier):

- Apple Professional Learning training from a Learning Consultant\*\*
- Consultancy and advice around deployment\*\*
- Use of Apple School Manager, Apple Classroom etc\*\*

**Why consider an iPad at all?** There are a vast array of platform & manufacturer choices to consider but the iPad remains the dominant device of choice for many schools and for solid reasons:

- \* They are easy to set up and manage
- \* They are easy and simple to use
- \* They are secure – no anti-virus software needed!
- \* 'Instant on'

We are strong believers in establishing parental donations to support your 1:1 programme (and yes, they do contribute, and yes, it is sustainable). With the help and support of the partner companies, we are able to offer this complete package at the incredible price from just £9.00\* a month.

With this offer, we will provide our highly regarded advice & guidance to help you plan, launch and maintain a successful and sustainable programme that will help ensure all of your children have the opportunity to achieve their full potential.

*The Learning Foundation is a charity whose aim is to enable all children to achieve their full potential through the use of technology and be able to use it in class and at home. We are not tied to any manufacturer or platform as we know the needs of schools differ and the appropriate device will vary to suit. Our purpose is to provide planning advice and guidance to schools along with management services to support 1:1 programmes to help them remain successful and sustainable.*

\* This is a guide price based on 36 monthly parental donations. Other financial variations are possible, please ask for more information.

\*\* The included free training is subject to the terms & conditions of the supplier - please ask for more details
